\$10,000 COW IS THE PET OF MILK SHOW IN PALACE

Dairy Farm With All Latest Machinery on View—Gov. Whitman Lauds Farmer in War.

Grand Central Palace, the scene of many and varied forms of amusements and attractions, opened its doors yesterday for one week on a gigantic and patriotic dairy farm show with dozens of cows and all sorts of machinery and equipment.

Gov. and Mrs. Whitman visited the exhibition last evening. The Governor made a brief address in which he said that the Milk Exposition is but one more item in the great war programme of the State, for the milk question is intimately linked with the success of the farmer and the war is being fought by the farmer on the fields as well as by the soldier in France.

New York State has an official display and appropriated \$20,000 for the exposition.

One-cent meals of dishes made with milk proved to be the most attractive feature of the show. The first exhibit, which all of the visitors wanted to see, was the \$10,000 cow, Oxford Briar Flower, brought to this country by Edmund Butler of Mount Kisco and sold to the Brookwood Farms this month.
